SKILLS

- HTML
- CSS
- Javascript
- React / React Native
- Node.js
- Express.js
- PostgreSQL
- Firebase

EDUCATION

SOFTWARE ENGINEERING

Bachelor of Software Engineering

Ontario Tech University | 2018 - 2023

EXPERIENCE

PERN STACK TODO-LIST

Created a PERN todo-list application that deals with user requests and responses, and utilizes states and PostgreSQL database to keep track of and change todo-list items

REACT NATIVE TODO-LIST APP

Created a todo-list mobile application using react native that contains various functionalities, such as users being able to add new todo lists, add todo items, check off completed items, etc...

MOVIE DATABASE

Created a movie database that utilizes an API to display and search through various user requested movies. The user has the ability to add movies to a watch list and watched list.

CAPSTONE PHOTO ORGANIZATION APP

Consisting of a team of 4, created an Android photo organization application with photo storage and organization capabilities, as well as machine learning techniques to search through and remove any redundant and low-quality images.
